Additional material in Red

SCENARIOS

West Front Scenario 2: Romagny.

The U.S. marked exit road/objective is off the east battlefield edge, not west.

East Front Scenario 5: “Stal’ Stal’ Stal’”

The Soviet player may have up to six stands in foxholes and two in entrenchments initially.

The second group of Soviet reinforcements arrives two turns after the first group, without resort to a die roll.

Remove the 1446th SU Regiment from the Soviet order of battle.

The German reinforcements arrive automatically on turn one. They may not make a flank attack.

The objective area for Hill 252.2 should be moved to the north slope, placing it in no-man’s land.

All German PzKw IVF2 tanks should instead be PzKw IVG.
